Doctors on the Move for Africa (DOTMA) | Remote |

Sept 2023 – Present

- Analyzed complex clinical data using Python, SQL, and Power BI to uncover actionable insights.
- Developed custom dashboards and visualizations in Tableau to monitor healthcare KPIs.
- Implemented automated workflows for patient data processing using Python scripts.
- Provided remote support to optimize administrative processes and enhance patient management systems.
- Facilitated virtual training sessions for healthcare professionals on using analytics tools.
- Conducted predictive modeling for resource allocation in healthcare outreach programs.

- **MBBS – June 2008 –**
Aug 2016
- **Data Analysis**
Certifications: EntryLevel,
Alison, and
Unicaf/Unithena

TECHNICAL SKILLS

- **Programming & Analytics:**
Python (Pandas, NumPy,
Matplotlib), SQL, Tableau,
Power BI, Apache Spark.
- **Statistical Tools:** SPSS,
Regression Techniques,
Minitab.
- **Data Engineering:** Knime,
Altair.
- **Healthcare IT:** Electronic
Medical Records (EMR),
Healthcare KPIs analytics.
- **Productivity Tools:** MS
Excel, Google Workspace,
Workflow Automation.

AWARDS & LEADERSHIP

- **Leadership Recognition:**
Awarded for outstanding
contributions to community
healthcare outreach.
- **Research Excellence:**
Published peer-reviewed
articles on advancements
in anatomic pathology.
- **Project Management:**
Successfully led initiatives
to improve healthcare
access in underserved
regions.
- **Mentorship:** Commended
for mentoring junior
medical staff and fostering
a collaborative
environment.
